

**Vancouver & Toronto, June 01<sup>st</sup>, 2018** – iSP<sup>3</sup> solution providers inc. announce that it has completed its acquisition of TeamCain, a leading management and technology consulting firm focusing on implementing JD Edwards Enterprise Resource Planning (ERP), Purge-it!, Scanman, Packman, RF Smart and Global Software in Canada and the US. The combined organizations expect to enhance iSP<sup>3</sup> solution providers inc.'s ability to fully support its clients' Oracle JD Edwards EnterpriseOne implementation efforts for Finance, Supply Chain, Manufacturing and Human Capital Management applications globally.

Mike Guerin, President, TeamCain: "It is with great pride that we announce TeamCain will be continuing on as TeamCain Solutions Inc, an iSP<sup>3</sup> Company. There are many parallels between the two companies from the culture to the integrity and the way both operate in business. There is great value in bringing the industry experience in both companies coming together as one, combining both of our specializations in JD Edwards and Cloud. Customers, partners and stakeholders in both companies should expect the same high level of service and dedication going forward as we have always strived to provide in the past. The benefits coming from this acquisition will be that the experience, the people, the partnerships and our combined support from both organizations will be available in every project going forward. Combined Experience, Proven Success. TeamCain is PROUDLY an iSP<sup>3</sup> company."

Anne Hopping and William Liu, iSP<sup>3</sup> Senior Partners: "The Mission and Culture of the two organizations are perfectly aligned. The acquisition will broaden product and service offerings as well as best practice implementation methodology and intellectual property into additional industries. Both organizations are focused on delivering a solution that is "right for the client" and becoming their trusted advisors. Customer Satisfaction is the number one priority for both organizations and the combination of the two will strengthen and enhance that focus. We are excited to have TeamCain become part of the iSP<sup>3</sup> family."
